THE COUNCIL FOR TOBACCO RESEARCH - U.S.A.

July 25, 1967

Rejected

MEMORANDUM

TO: The committee comprising Dr. Cattell, Chm., Dr. Bing and Dr. Sommers.

FROM: Robert C. Hockett

SUBJECT: New application from Harry Darrow Brown, Ph.D. - No. 625.

We enclose herewith a new application from Dr. Harry Darrow Brown of the University of Texas, Galveston, Texas.

The application includes a supplement on "Nicotine Effects Upon Cardiac Membranes" and is accompanied by six reprints (one an abridgement) of studies by the author on ATPase as listed below.

1. Harry Darrow Brown. A characterization of the ouabain sensitivity of heart microsomal ATPase. Biochem. Biophys. Acta, 120, 162, (1966).

2. Harry Darrow Brown, S.K. Chattopadhyay, and A. Patel. Sarcoplasmic Reticulum ATPase On a Solid Support. Biochem. Biophys. Res. Comm. 25, 304, (1966).

3. Harry Darrow Brown. Azasteroids and Heart Adenosine Triphosphatase. Biochem. Pharmacal., 15, 2007, (1966).

4. Harry Darrow Brown, Swaraj K. Chattopadhyay, Anil B. Patel. Properties of Butanol-Extracted and Detergent-Solubilized Membrane ATPase. Arch. Biochem. Biophysics, 120, 222, (1967).

5. H. D. Brown, S.K. Chattopadhyay, A. Patel and R. H. Rigdon. Glycoside Effect Upon Membrane Enzymes of Erythrocytes and Muscle in Duck Myopathy. Experientia.

6. H. D. Brown (?) (Authors not shown). Abridgement of the Manuscript "Erythrocyte Abnormality in Human Myopathy."

R. C. H.
